

Executive Summary

M/S. SATUMM TRADE AND TECHNOLOGIES is a multifaceted partnership firm based in Dhaka, Bangladesh, dedicated to excellence in large-scale procurement, export-import and technical services. Established in 2025, the firm operates as a fully credentialed **1st Class Contractor, International Trading House, and Technical Service Provider** specializing in AI-enhanced Software Quality Assurance (QA). By integrating deep domain expertise in government procurement with a robust global supply chain, SATUMM serves as a reliable partner for both public and private sector enterprises.

Core Business Priorities

1. Local & International Contracting

As a premier 1st Class Contractor and e-GP approved tenderer, SATUMM is a leader in high-stakes project execution and public procurement.

- **Government Procurement:** Specializing in the supply of essential institutional goods, IT infrastructure, and specialized technical services for the People's Republic of Bangladesh.
- **International Public Sector:** Fully registered in **SAM.gov (UEI: DRXUBYCEDRH3)** and **NCAGE (STEY2)**, making the firm eligible for prime contracts with the U.S. Federal Government, NATO, and global NGOs.
- **Project Management:** Comprehensive management of service and maintenance contracts for large-scale infrastructure and institutional projects.

2. Global Trade: Export & Import

SATUMM leverages its official IRC and ERC certifications to facilitate seamless cross-border trade, connecting Bangladesh to key markets in China, Australia, USA and beyond.

- **Import Operations:** Specialized sourcing of premium IT hardware, high-end consumer products, cosmetics, and essential baby products.
- **Export Operations:** Promoting Bangladeshi heritage and quality by exporting premium RMG (Garments), traditional Jamdani sarees, and agro-based products to global distributors.
- **Customs & Logistics:** Expertise in navigating the regulatory landscapes of the Port of Chattogram and international customs to ensure timely delivery.

3. Information Technology & QA Solutions

Rooted in over 12 years of industry-leading technical experience, the IT wing provides AI-enhanced Software Quality Assurance (QA) and high-reliability software solutions.

- **AI-Enhanced QA Solutions:** Utilizing Artificial Intelligence for self-healing automation, predictive risk analysis, and automated test-data generation to accelerate delivery and ensure zero-defect software launches..
- **System Implementation:** Deployment of custom software frameworks, e-commerce platforms, and automation tools designed to optimize business operations.
- **IT Consultancy:** Providing technical monitoring and vulnerability assessments based on global **OWASP** standards.

Corporate Identity & Compliance

SATUMM maintains the highest standards of transparency and is registered with the following global and national authorities:

- **International Identifiers:** UEI: DRXUBYCEDRH3 | NCAGE: STEY2 | DUNS: 732234224
- **National Compliance:** RJSC No: P-55777/2025 | TIN: 463540502591 | VAT/BIN: 007384501-0402
- **Licensing:** Trade License No: TRAD/DNCC/005762/2025 (**1st Class Contractor status**).
